words & music by elwood

Jesus stay by my side through the lonely, lonely night.  
I need you here to dry my tears.  
I've lost someone I really care for, they've gone so far away.  
I need you by my side to stay.

Show me your love, I need it Lord,  
You know I believe, I always have.  
Show me Your Love, I need it Lord.  
Touch me right now, You make me feel all right.

Please take me home right now through the starry, starry sky.  
So I can see my friend once again.  
We shared such good times in You I know I shouldn't cry,  
I need Your Love to get me by.

*Show me your love, I need it Lord,  
You know I believe, I always have.  
Show me Your Love, I need it Lord.  
Touch me right now, You make me feel all right.*

I know where my friend has gone,  
And that there is no need to fear.  
It's just that it hurts so bad when they are not here.  
I know that there better off but even still,  
I miss them so and always will.  
Just touch my heart and let me feel,  
Your by my side.

*Show me your love, I need it Lord,  
You know I believe, I always have.  
Show me Your Love, I need it Lord.  
Touch me right now, You make me feel all right.*
