

# Baby, You Make Me Happy

---

words & music by elwood

As I look across the evening sky,  
And I wonder at the things to come.  
You're the first thing to cross my mind,  
As I think about the things we've done.

You know me like nobody else does,  
Even better than I do myself.  
Smilin' when I think about you,  
Baby, that's somethin' I just can't help.

*Baby, you make me happy,  
I think you know that's true.  
Baby, I'm so happy,  
Just to spend a little time with you.*

Time goes by but you're still here  
Beside me every step of the way  
Makin this journey worth it's while  
Give me reason to face the day.

You've stayed here through thin and thinner  
Smiling all along  
Giving me hope and letting me see  
Together we are strong

*Baby, you make me happy,  
I think you know that's true.  
Baby, I'm so happy,  
Just to spend a little time with you.*
