

G Movie

words & music by elwood

Tempo: 108

Slow and deliberate, ie Alan Jackson

G D C
I remember those days of innocence
G D C
I remember when a kid could be a kid
I remember those days of yesteryear
Now I long for them again

*Life used to be a G movie
When some things stayed behind closed doors
Now I don't think we denied reality
But life used to be a G movie*

Well we can't watch the TV any more
Where I'm from folks just don't talk that way
What you used to say when you'd hit your thumb with a hammer
Is now on TV every day

*Life used to be a G movie
When some things stayed behind closed doors
Now I don't think we denied reality
But life used to be a G movie*
