

One by One

words & music by Elwood McElveen, Jr.

One by One
Thats the way it must be done,
Face to Face,
One by One

Send the money, feed the hungry
All across the world
What about those lonely people
Just across the street

Its easy, feeding
A face a million miles away
But saving the soul
Is the call of the day.

One by One
Thats the way it must be done,
Face to Face,
One by One

Someones crying, someones dying
Just around the block
There's devine appointments
Just waiting for you

You can reach them, you can teach them
How long must they wait
The heart can't depend
On the twist of fate
