

Stars Few Have Seen

words & music by elwood

Tempo	84
Capo	2

There are stars, few have seen,
Burnin' out day by day.
Shine their light on their little world,
Then they're on their way.

CHORUS 1: *But somebody's seen them shine.
And somebody knows their work.
And somebody's gonna to miss their sweet light.
Mmmmm*

Even though some may not know,
All the work you do.
Be strong keep on,
I can assure you.

CHORUS 2: *Somebody knows your work.
Somebody's seen you shine.
And this world is a better place,
For all you do.*

There are those heaven knows,
That do what's got to be done.
Not because they may be seen,
Or noticed by anyone.

CHORUS 1

BRIDGE: Don't let your appreciation go unsaid,
If there's someone you have in mind.
They might could use a helping hand,
Or maybe a word that's kind.

CHORUS 2: *Somebody knows your work.
Somebody's seen you shine.
And this world is a better place,
Because of you.*
